## 1. ASSIMILATION RESPONSE MEASUREMENTS

### **Technology:**

Portable infrared gas analyzer (IRGA) LI-6800 with controlled environmental parameters.

The service includes preparation of the meter and performance of measurements on plant samples.

Data is archived.

### **Information and contact:**

Slovenian Forestry Institute, Laboratory for Ecophysiology and Silviculture

E-mail: [matjaz.cater@gozdis.si](mailto:matjaz.cater@gozdis.si)

## 2. SOIL RESPIRATION MEASUREMENTS

### **Technology:**

Portable Infrared Gas Analyzer (IRGA) LI-6800-09 in a closed system configuration.

The service includes preparation of the meter and performance of measurements on soil samples. Data

is archived

### **Information and contact:**

Slovenian Forestry Institute, Laboratory for Ecophysiology and Silviculture

E-mail: [matjaz.cater@gozdis.si](mailto:matjaz.cater@gozdis.si)

## 3. ANALYSIS - REPORT

### **Technology:**

Transfer and processing of measurement sets, analysis and report writing.

### **Information and contact:**

Slovenian Forestry Institute, Laboratory for Ecophysiology and Silviculture

E-mail: [matjaz.cater@gozdis.si](mailto:matjaz.cater@gozdis.si)

## 4. FIELD-TRIP DAY

### **Technology:**

The service includes field sampling, which is adapted to the configuration and accessibility of the facility.

The data is archived.
